Summary

I'm a Junior Software Developer at Folksam where i get to work with the most up-to-date technology including Java 17, Springboot 3, Openshift, and ArgoCD. With a strong interest in programming and IT security, I'm dedicated to developing efficient and secure software solutions that meet the needs of our clients.

I'm also dedicated to contributing to a positive and productive team environment, and always strive to support my teammates in achieving our shared goals.
